Current Type:

Dc

Overall Diameter:

1.180 inches

End Application:

Tank level transmitter

Voltage Rating:

Between 14.0 volts and 33.0 volts

Mounting Method:

Any acceptable

Product Name:

Transmitter, liquid

Special Features:

100 percent titanium generic 4 20ma output, suitable for all shipboard liquids removal without tank entry

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-b
