Ac Voltage Rating:

230.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Actuation Method:

Buoyancy

Float Quantity:

1

Operating Temperature Rating:

140.0 degrees fahrenheit

Mounting Method:

Clamp

Maximum Current Rating:

12.0 amperes load

Float And Contact Positions:

Float down, contacts closed or float up, contacts open

Phase:

Single

Special Features:

Controls pumps up to 2 hp, hermetically sealed mercury to mercury switch, adjustable range 6.5 to 13.5 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T109-d
