**Ac Voltage Rating:**

Between 120.0 volts and 230.0 volts

**Frequency Rating:**

Between 50.0 hertz and 60.0 hertz

**Actuation Method:**

Buoyancy

**Float Quantity:**

1

**Operating Temperature Rating:**

140.0 degrees fahrenheit

**Maximum Current Rating:**

5.0 amperes load

**Phase:**

Single

**Special Features:**

18 ga 2 conductor cable, maximum depth 30 ft, contains spst mercury to metal contacts; hermetically sealed in steel capsule and epoxy sealed float housing

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T109-d
