Ac Voltage Rating:

Between 120.0 volts and 230.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Actuation Method:

Buoyancy

Float Quantity:

1

Operating Temperature Rating:

140.0 degrees fahrenheit

Maximum Current Rating:

5.0 amperes load

Phase:

Single

Special Features:

18 ga 2 conductor cable, maximum depth 30 ft, contains spst mercury to metal contacts; hermetically sealed in steel capsule and epoxy sealed float housing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T109-d
