/iew Online at https://aerobasegroup.com/nsn/6680-01-563-5592
Vidth:
1.550 inches
Diameter:
.000 inches
ength:
5.070 inches
Media For Which Designed:
iquid
Case Material:
Bronze
Depth:
3.330 inches
End Application:
Reverse osmosis desal system 24, 000 gpd lpd class
Case Shape:
Round
Scale Presentation Range:
3 to 20 range of numerical markings
Pressure Type:
Low or medium
Smallest Increment Indicated:
.000
Scale Inscription/background Color:
Black markings on white background
Maximum Differential Pressure:
20.0 gpm for water
Totalizing Integrator Register:
Not included
Shelf Life:
N/a
Jnit Of Measure:
-
Demilitarization:
No

Fiig:

T134-s
