Width:

110.0 millimeters

Length:

241.0 millimeters

Presentation Type:

Digital display

Scale Range:

-1.0/+40.0 bar single indicator degree celsius

Case Material:

Plastic and aluminum

Product Name:

Guided wave radar level transmitter

Special Features:

Time domain reflectometry (tdr); m20 x 1.5 adapter conduit; sealing o-ring ethylene propylene; coaxial probe; flange dn100, pn16 in 316l sst; no hazardous location certifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A533y0
