Overall Length:

7.800 inches

Overall Height:

5.240 inches

Overall Width:

2.000 inches

Special Features:

Circuit board: standard; output: 0-5 volts; fittings: 1/2 inch swagelok; o-rings: viton; valve bonnet assembly: standard; valve seat: viton/polytetrafluoroethylene; working pressure: 500 psig; calibration type: nist 5 point; valve: normally closed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
