Carrying Case:

Provided

Scale Range:

+0.0/+6000.0 feet per minute

Product Name:

Velometer thermal anemometer with temperature humidity and basic data logging

Special Features:

Measures velocity, temperature, humidity, and basic data logging; measuring ranges: velocity 0 to 6000 fpm, temperature 14 to 140 degrees f, humidity 0 to 95 pct. Rh; volumetric flow rate range depends on velocity and duct size; articulated probe; power source: 4 aa alkaline batteries; avg. Battery life: approx. 24 hrs; includes: meter with articulated probe, hard carrying case, four alkaline batteries, usb cable, downloading software, operation and service manual, and nist calibration certificate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-c
