Carrying Case:

Not provided

Measurement Unit:

Feet per minute

Smallest Increment Indicated:

0.1

Accuracy Range In Percent:

-2.5/+2.5

Product Name:

Airflow meter/micromanometer

Special Features:

Measures airflow in pascals, air velocity in fpm, air flow in cfm, and temperature in degrees c; 99 reading storage capacity; 2000 m operating alt; 0 to 50 c operating temp; ip 40 rating

Special Test Features:

Meets requirements for en61326-1

Specification Data:

96906-mil-prf-28800f, class 3 government standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-b

Mil-std (military Standard):

Mil-prf-28800f spec.
