Air Velocity Meter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6680-01-590-8230

## **Carrying Case:**

Not provided

## **Measurement Unit:**

Feet per minute

**Smallest Increment Indicated:** 

0.1

## Accuracy Range In Percent:

-2.5/+2.5

## **Product Name:**

Airflow meter/micromanometer

## **Special Features:**

Measures airflow in pascals, air velocity in fpm, air flow in cfm, and temperature in degrees c; 99 reading storage capacity; 2000 m

operating alt; 0 to 50 c operating temp; ip 40 rating

## **Special Test Features:**

Meets requirements for en61326-1

# Specification Data:

96906-mil-prf-28800f, class 3 government standard

# Shelf Life:

N/a

Unit Of Measure:

--

## Demilitarization:

No

Fiig:

T134-b

## Mil-std (military Standard):

Mil-prf-28800f spec.
