End Application:

Model vcs-d-720-320 naval distillate filter separator

Maximum Tempurature Rating:

122.0 degrees fahrenheit

End Connection Type:

Flanged, recessed both ends

Maximum Working Pressure:

100.0 pounds per square inch

Furnished Data:

Liquid level

Data Furnishing Method:

Float ball

Product Name:

Liquid level guage assembly

Material:

Plastic and copper alloy and stainless steel

Media For Which Designed:

Oil

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A43400
