Body Material:

Brass

Media For Which Designed:

Liquid and gas

Inlet Connection Type:

Threaded

Inlet Thread Direction:

Right-hand

End Application:

Desal, plnt re

Installation Design:

Direct mount

Inlet Connection Size:

Npt1.5

Scale Measurement Range:

+15.0 to 100.0

Inlet Flange Shape:

Round

Inlet Thread Series Designator:

Npt

Outlet Connection Type:

Threaded

Outlet Flange Shape:

Round

Outlet Thread Series Designator:

Npt

Outlet Thread Direction:

Right-hand

Smallest Increment Indicated:

15.0

Installation Location:

Any acceptable

Straightening Vane:

Not provided

Register Type:

Dial w/pointer

Reset Feature:

Not provided

Outlet Connection Size:

Npt1.5

Product Name:

Flow meter

Special Features:

Accuracy plus or minus 3 percent of scale. Flow media: liquids and gases. Mounting: horizontal or vertical. Temperature range: standard minus 30 to 212 degrees fahrenheit, maximum pressure standard: 180 psig. Material: monel, bellows: monel, fittings: 1 1/2 inch npt.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-d
