End Application:

3990-01-588-3373

Maximum Temperature Rating:

250.0 degrees fahrenheit

End Connection Type:

Threaded external, plain first end

Maximum Working Pressure:

290.0 pounds per square inch

Furnished Data:

Liquid level

Data Furnishing Method:

Clear window

Special Features:

Height 3.5"

Material:

Aluminum alloy

Media For Which Designed:

Oil

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A43400
