Media For Which Designed:

Oil

Inlet Connection Type:

Threaded

Tube Material:

Aluminum

Maximum Working Pressure:

3500.0 pounds per square inch

Inlet Connection Size:

3/4 inch to 1 inch

Maximum Water Capacity In Gallons Per Minute:

40.0

Maximum Air Capacity In Cubic Feet Per Minute:

400.0

Product Name:

Variable area flow monitor

Special Features:

Porting thread type 1-inch bspp female

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-t
