Overall Height:

5.50 inches

Overall Width:

6.00 inches

Indicator Type:

Digital display

Installation Design:

Hand held

Product Name:

Defender 510m volumetric meter

Special Features:

Flow range: 50-5000 ccm, volumetric accuracy 1%, selectable measurements volumetric: ml/mn, l/min, cc/min, cf/min, time per reading 1-15 seconds, for single (manual), continuous or burst, for non-corrosive gases, non-condensing, less than 70% humidity. Pressure of suction flow modes cell style measurement integrated. Battery system 6v rechargeable sealed lead-acid with 6-8 hrs typical operation with 1 yr warranty (battery 6 month). Store at 0-70°C, humidity type 0-70%, non-condensing. Operating pressure atmospheric, maximum 15 psi. Display backlit graphical lcd. Serial-rs-232 data port, 1 meter defender to pc data cable. Dimensions 5.5 in x 6 in x 3 in weight 29 oz rohs and ce-compliant.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
