Scale Range:

+0.000 to 21000.000 gallons of liquid nitrogen

Scale Name:

Differential pressure

Dial Size:

6 inches diameter

Scale Type:

Single

Scale Smallest Increment:

10 gal and 50 gal

Scale Accuracy:

3 pct accuracy entire range

Scale Inscription/background Color:

Black letters and figures on white background, green band from 0 to 2000 gal, red band from 2000 to 2100 gal

Special Features:

10 gal increment from 0 to 50 scale range, 50 gal increment from 50 to 2100 scale range, 0 to 65 inches water column, 50 psi design pressure; special cleaned in accordance with mil-p-52211/ce/

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
