Case Material:

Brass

Maximum Voltage Rating In Volts:

120.0 ac

End Application:

Chilled water a/c systems; poseidon material

Inclosure Type:

Encased

Current Rating In Amps:

4.4

Terminal Location:

Back

Operating Range:

20 to 80 percent relative humidity range

Power Source:

External

Mounting Method:

Bulkhead

Features Provided:

Automatic shutoff

Terminal Type And Quantity:

3 wire lead

Maximumlength:

4.875 inches

Maximumwidth:

2.500 inches

Maximumheight:

1.500 inches

Intelligence Data Handling Capability:

Humidity receiving automatic

Indication Method:

Transmitting disk scale

Sensing Element Type And Location:

Hair internal

Phase:

Single

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
