Overall Length:

26.000 inches

Overall Height:

15.000 inches

Overall Width:

14.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Calibration Type:

Variable output

Instrument Calibration Range:

-20.O to 70.0 degrees c

Calibration Accuracy Rating:

0.02 percent

Special Features:

Use glycol-water solution; 650 watt heater; 1/2 hp circulating pump and refrigeration unit; used to check prt-5 precision radiation

thermometers

Material:

Stainless steel

Surface Treatment:

Enamel

Shape:

Rectangular

Surface Treatment:

Enamel, baked

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-b
