Operating Temperature Range:

+151.0/+185.0 degrees fahrenheit

Inclosure Type:

Encased

Power Source:

External

Intelligence Data Handling Capability:

Temperature receiving automatic

Indication Method:

Transmitting dial

Special Features:

With double seat fit, 250 psi differential pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
