**Scale Type:**

Dial

**Measurement Type:**

Potentiometer circuit

**Scale Measurement Range:**

-20.000/+1000.000 degrees celsius

**Special Features:**

Portable self-contained, one 1.5 volt battery and one 45 v battery, five resistance ranges, carrying case, and one plug in test cable

**Material:**

Plastic polyvinyl chloride

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A27600
