Overall Length:

18.125 inches

Overall Height:

9.125 inches

Overall Width:

10.750 inches

Current Type:

Ac

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Accessory Components And Quantity:

Supplied with 20 rolls of chart paper; independent pen system

Operating Range:

+80.0/+180.0 degrees fahrenheit

Information Recorded:

Temperature

Graduation Unit:

5.000 degrees

Recording Method:

Ink pen on recording chart

Chart Drive Method:

Electromechanical assembly

Phase:

Single

Special Features:

Solid state amplification; 1 channel; accuracy .25 percent; chart speed 3 and 6 inch per hour; recorder ink and pen tip included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-a
