Operating Temperature Range:

+0.0/+300.0 degrees fahrenheit

Maximum Voltage Rating In Volts:

110.0 ac

Inclosure Type:

Encased

Current Rating In Amps:

10.0

Operating Range:

Compensated for room temp change from 50 to 120 degrees f

Power Source:

External

Mounting Method:

Flush panel

Maximumlength:

7.313 inches

Maximumwidth:

7.500 inches

Maximumheight:

6.500 inches

Intelligence Data Handling Capability:

Temperature receiving automatic

Indication Method:

Receiving horizontal scale

Sensing Element Type And Location:

Thermocouple remote

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
