**Indicating Liquid For Which Designed:**

Mercury

**Indicating Liquid:**

Provided

**Control Valve:**

Provided

**Special Features:**

dimensions 12.0 inches wide by 7.5 inches deep by 18.0 inches high; with 0.8 lbs triple distilled mercury, 3 line cord and 3 prong plug; power consumption 25 watts; 120/240 vac, 50/60 hz; accuracy +/- 0.1 mm adjustment to new ranges 100 mm or more; adjustments to 0.05 mm; sheet metal housing with rubber feet

**Functional Description:**

For efficient operation of fractional distillation processes or safe vacuum drying with a control sensitivity better than +/- 0.05 mm throughout a full range from atmospheric to 3.0 mm hg

**Supplementary Features:**

Manufacturers name: manostat micro-set

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T179-d
