Indicating Liquid For Which Designed:

Mercury

Indicating Liquid:

Provided

Control Valve:

Provided

Special Features:

dimensions 12.0 inches wide by 7.5 inches deep by 18.0 inches high; with 0.8 lbs triple distilled mercury, 3 line cord and 3 prong plug; power consumption 25 watts; 120/240 vac, 50/60 hz; accuracy +/- 0.1 mm adjustment to new ranges 100 mm or more; adjustments to 0.05 mm; sheet metal housinng with rubber feet

Functional Description:

For efficient operation of fractional distillation processes or safe vacuum drying with a control sensitivity better than +/- 0.05 mm throughout a full range from atmoshperic to 3.0 mm hg

Supplementary Features:

Manufacturers name: manostat micro-set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-d
