Scale Marking And Surface Finish:

Lined increments nonluminous and numerals nonluminous

Diameter:

2.266 inches

Scale Range:

+60.0/+260.0 degrees fahrenheit single indicator single scale

Pointer Type:

Clock-hand single pointer

Features Provided:

Lamp socket and resistor type voltage adapter

Special Features:

Scale calibration: 7444 ohms at 60 degrees f, 711 ohms at 200 degrees f, 375 ohms at 260 degrees f; scale name: temp f deg; scale marking color: white; includes encasement feature

Height:

2.109 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A533y0
