Overall Length:

20.500 inches

Overall Height:

9.250 inches

Overall Width:

8.875 inches

Case Material:

Oak

Point Quantity:

15

Accessory Components And Quantity:

3 batteries, dry cell

Scale Calibration:

Calibrated to iron constantan thermocouple

Installation Design:

Portable

Scale Range:

0.0 to 16.1 mv low range, 0.0 to 80.5 mv high range

Scale Type:

Eccentric

Scale Smallest Increment:

0.01 millivolts

Measurement Type:

Millivolt circuit

Scale Accuracy:

Porm 0.050 pct accuracy rating

Scale Length:

12.000 inches

Indicating Point Type:

Multiple

Control Switch Type:

15 point dial switch

Off Position Quantity:

1

Case Type:

Hinged lid carrying case w/handle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
