Overall Length:

10.000 inches

Operating Temperature Range:

+0.0/+400.0 degrees celsius

End Application:

Propulsion systems

Unit Type:

Protective tube

Mounting Facility Type And Quantity:

1 bayonet

Accommodated Wire Awg Size:

24

Immersion Length:

4.000 inches

Material:

Copper protective tube

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27600
