Overall Length:

12.250 inches

Overall Height:

7.875 inches

Overall Width:

7.750 inches

Case Material:

Wood

Accessory Components And Quantity:

Battery, drycell 1, cell 1, pointer, galvanometer 1

Scale Calibration:

Iron constantan thermocouple

Installation Design:

Portable

Scale Range:

0 to 111 mv

Scale Type:

Eccentric

Scale Smallest Increment:

0.05 millivolts

Measurement Type:

Millivolt circuit

Scale Accuracy:

0.05 millivolt rating

Indicating Point Type:

Single

Case Type:

Hinged lid carrying case w/handle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-b
