Overall Length:

10.250 inches

Stem Length:

3.250 inches

Design Type:

Fluctuating

Scale Type:

Metal back

Scale Smallest Increment:

2.0 degrees fahrenheit

Scale Inscription/background Color:

Black marking on white background

Actuating Medium:

Mercury

Scale Accuracy Rating:

Prom 2 degrees entire range

Features Provided:

Lens magnifying front

Scale Measurement Range:

+30.000/+240.000 degrees fahrenheit

Special Features:

Integral socket and bulb 5 in. Lg, scale 20 degrees figure intervals

Style Designator:

Straight angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
