Case Material:

Brass

Case Surface Treatment:

Enamel

Environmental Protection:

Watertight and body sealed

Operating Temperature Range:

-50.0/+250.0 degrees fahrenheit

Inclosure Type:

Hermetically sealed

Power Source:

Self-contained

Mounting Method:

Surface

Maximumlength:

6.500 inches

Maximumwidth:

3.625 inches

Maximumheight:

15.750 inches

Intelligence Data Handling Capability:

Temperature transmitting automatic err-100 err-100

Indication Method:

Transmitting concentric scale err-100 err-100

Sensing Element Type And Location:

Bulb remote

Special Features:

Air or water operated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
