Scale Marking And Surface Finish:

Numerals nonluminous

Current Type:

Ac/dc

Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

12.0 volts

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Scale Range:

-40.0/+60.0 degrees fahrenheit single indicator 1st scale

Phase:

Single

Special Features:

With sealed temperature probe, thermister sensor, recorder output; scale calibration: 10 deg; scale name: degrees f; dial selector knob marking: minus 40 to 60, 30 to 130; includes: encasement feature, dial selector knob

Reference Number Differentiating Characteristics:

As differentiated by scale name and special features

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A533y0
