Overall Height:

9.750 inches

Overall Width:

6.250 inches

Case Material:

Aluminum alloy

Installation Design:

Mounted

Scale Range:

+0.0/+10.0 millivolts

Scale Type:

Meter dial

Scale Smallest Increment:

1.0 millivolts

Measurement Type:

Millivolt circuit

Indicating Point Type:

Single

Case Type:

Hinged lid carrying case w/handle

Special Features:

RANG-E0-TO1-VOLT

Reference Data And Literature:

T.O. 33d4-6-25-121

Supplementary Features:

Manufacturers name: tester thermocouple hi current

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
