**Thread Direction:**

Right-hand

**Overall Height:**

4.000 inches

**Mounting Method:**

Threaded

**Flow Control Device:**

Choke

**Opening Pressure Setting:**

35.0 pounds per square inch

**Largest Outside Diameter:**

1.750 inches

**Usage Design:**

Cool engine oil

**Valve Travel Distance:**

0.235 inches

**Thermostat Type:**

Bimetallic

**Opening Temperature Rating:**

Between 177.0 degrees fahrenheit and 182.0 degrees fahrenheit

**Operating Temperature Rating:**

160.0 degrees fahrenheit

**Spring Operated Pressure Relief:**

Provided

**Closing Pressure Setting:**

Between 35.0 pounds per square inch and 45.0 pounds per square inch

**Thread Size And Series/type Designator:**

1/2-18 nef

**Fsc Application Data:**

Thermostat, flow control, engine instrument

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T121-c
