Product Name:

Dew point meter

Functional Classification:

Aa-8.17

Functional Description:

Determines dew point temp in oxygen, nitrogen, & helium gas systems

Entry Date:

70-04-01

Reference Data And Literature:

To 35m12-2-2-1 & 35m12-2-2-4

General Description:

Determines dew point temp in oxygen, nitrogen, & helium gas systems; 18.000 in.Lg, 12.000 in.W, 12.000 in.H; gas sample ranges- temp m20 to p150 degrees f, pressure 15 to 6000 psi; flow rate 100 cc per min; accuracy porm 5 pct full scale on lowest appl range; 25 min response time; 20 ppm moisture content sensitivity on most sensitive range; power 105/125 vac, 60 hz

Type/model Designation:

Gsu-4 (xc-1) /e

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
