**Overall Length:**

12.375 inches

**Overall Height:**

5.375 inches

**Overall Width:**

12.875 inches

**Case Material:**

Aluminum

**Installation Design:**

Portable

**Scale Type:**

Dial

**Measurement Type:**

Millivolt circuit

**Case Type:**

Carrying case w/handle

**Special Features:**

Used to calibrate total temperature indicators on aircraft, uses a series of potentiometers to establish millivolt inputs

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T179-b
