Mounting Method:

Flange

Usage Design:

Control liquid flow

Thermostat Type:

Liquid expansion

Opening Temperature Rating:

55.0 degrees fahrenheit

Operating Temperature Rating:

Between 55.0 degrees fahrenheit and 95.0 degrees fahrenheit

Spring Operated Pressure Relief:

Not provided

Special Features:

Filled; bulb and capillary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T121-c
