Overall Length:

10.500 inches

Overall Height:

78.000 inches

Overall Width:

10.500 inches

Graduation Unit:

0.050 inches

Scale Range:

+0.0/+62.0 inches hg

Cistern Type:

Fixed, offset

Tube Bore Diameter:

0.631 inches

Thermometer Range:

-20.0/+50.0 degrees celsius

Err Default:

Err default

Special Features:

Manually positioned and controlled mercury meniscus scanner; magnifying mercury meniscus viewer; magnifying vernier reader glass; automatic universal compensation device for correcting for gravity and temperature errors; electronic scanner positioned and null indicating meter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-a
