## NSN 6685-00-886-9872

Indicating Temperature Control - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6685-00-886-9872

| Operating Tempurature Range:                      |
|---|
| +50.0/+80.0 degrees fahrenheit                    |
| Maximum Voltage Rating In Volts:                  |
| 125.0 ac  |
| Inclosure Type:                                   |
| Encased   |
| Terminal Location:                                |
| Front   |
| Power Source:                                     |
| External  |
| Mounting Method:                                  |
| Flush panel                                       |
| Terminal Type And Quantity:                       |
| 1 connector, receptacle                           |
| Maximumlength:                                    |
| 6.880 inches                                      |
| Maximumwidth:                                     |
| 10.370 inches                                     |
| Maximumheight:                                    |
| 7.500 inches                                      |
| Intelligence Data Handling Capability:            |
| Temperature receiving automatic err-100 err-100   |
| Indication Method:                                |
| Transmitting meter movement                       |
| Phase:  |
| Single  |
| Frequency In Hertz:                               |
| 60.0  |
| Reference Number Differentiating Characteristics: |
| Navord od44548                                    |
| Shelf Life:                                       |
| N/a   |
| Unit Of Measure:                                  |
|   |
| Demilitarization:                                 |
| Yes - demil/mli                                   |
