Case Material:

Aluminum, die cast

Case Surface Treatment:

Resin, epoxy

Actuation Type:

Bellows

Adjustability:

Adjustable

Scale Range:

+0.0/+50.0 pounds pressure per square inch

Scale Name:

Differential pressure

Dial Size:

6 in. Dia

Pointer Color:

Black

Pointer Type:

Indicating

Scale Type:

Single

Scale Accuracy:

Form 1/2 of 1 pct of entire range

Actuating Element Material:

Steel, stainless

Scale Inscription/background Color:

Black markings on white background

Bezel Type:

Slips-on

Protective Crystal Material:

Glass

Connection Size:

0.250 in. Npt dia

Connector Type Vent:

Not provided

Material:

Aluminum, die cast

Material:

Aluminum

Surface Treatment:

Resin, epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-b
