Case Material:

Plastic, polystyrene

Operating Temperature Range:

+4.0/+49.0 degrees celsius

Inclosure Type:

Encased

Power Source:

External

Maximumlength:

244.0 millimeters

Maximumwidth:

76.0 millimeters

Maximumheight:

144.0 millimeters

Intelligence Data Handling Capability:

Temperature receiving automatic

Special Features:

Pneumatic, 1/8 npt connections, gages installed in ports, dual input

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
