**Case Material:**

Plastic, polystyrene

**Operating Temperature Range:**

+4.0/+49.0 degrees celsius

**Inclosure Type:**

Encased

**Power Source:**

External

**Maximumlength:**

244.0 millimeters

**Maximumwidth:**

76.0 millimeters

**Maximumheight:**

144.0 millimeters

**Intelligence Data Handling Capability:**

Temperature receiving automatic

**Special Features:**

Pneumatic, 1/8 npt connections, gages installed in ports, single input

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A31700
