Overall Width:

13.000 inches

Overall Length:

15.000 inches

Unit Type:

Dial indicating

Overall Height:

9.120 inches

Special Features:

Dew point range minus 75 degrees c to plus 60 deg. C, dew point accuracy ± 0.4 degrees c nom; depression slew rate 2 degrees c per sec max; dew point sensitivity ± 0.06 degrees c; dew point temp output 0 to 10 vdc linear and 0 to 50 meter vdc linear; dew point measurement platinum resistance thermometer and copper/constantin thermocouple

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
