Length:

7.563 inches

Presentation Type:

Meter

Display Digit Quantity:

4

Accuracy Rating:

7.0 degrees fahrenheit single indicator single scale

Case Material:

Aluminum

Product Name:

Voltgun calibrator

Special Features:

Powered by 2 rechargeable nickel-cadmium batteries; spring loaded trigger switch that de-energizes circuit when device not in use; battery check light; plug into 115 vac, 50/60 hz battery charger to recharge battery; output temp 2200 degrees f (type k thermocouple)/2900 degrees f (type s thermocouple); weight 2 lbs 6 oz.; portable, one hand operation; built in reference junction compensation; battery charger is included in item package

Height:

7.563 inches

Supplementary Features:

Completely portable gun type device which permits convenient operator check of calibration and polarity of molten metal measurement systems; used with the temtip mark iv and tectip k

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
