Overall Height:

7.450 inches

Mounting Method:

Flange

End Application:

F-16 acft

Usage Design:

Servo air release ram air

Thermostat Type:

Pellet

Operating Temperature Rating:

Between 65.0 degrees fahrenheit and 270.0 degrees fahrenheit

Spring Operated Pressure Relief:

Provided

Special Features:

Manufacturers name: pneumatic thermostat

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T121-c
