Heating Element Thermocouple - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6685-01-076-8716

## **Overall Length:**

17.130 inches

## **Special Features:**

Hwire made of nickel, manganese and aluminum alloy is magnetic and of negative polarity, wire of nickel-chromium alloy is non-magnetic and

of positive polarity; proximity type, used in induction slab heater

Shelf Life:

N/a

Unit Of Measure:

---

Demilitarization:

No

Fiig:

A27600
