Overall Length:

8.000 inches

Outside Diameter:

6.875 inches

Operating Tempurature Range:

-50.0/+150.0 degrees celsius

Unit Type:

Protective tube

Scale Accuracy Rating:

Deg celsius 1.0

Special Features:

Two internal electrical contacts

Material:

Ceramic and platinum

Style Designator:

Transmitter, 24v dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
