Maximum Operating Pressure:

100.0 pounds per square inch

End Application:

F-16 acft

Accessory Components And Quantity:

Magnetic mtg clips, tube clamp bar 1, rapid shutoff molded nylon tubing connectors 2, 0.125 in. Pipe thd to tube adapters 2, 9 ft lg rubber tubing 1, brass terminal tube 1, 0.75 oz bottle 0.826 sp gr red gage oil 1

Indicator Type:

Two liquid

Zero Adjuster:

Not provided

Scale Range:

-12.0/+12.0 inches of mercury

Tubing Outside Diameter:

0.400 inches

Scale Smallest Increment:

0.1 inches

Connection Type:

Elastic tubing

Connection Facility Type:

External

Connection Location:

Top

Parallax Eliminating Feature:

Provided

Indicating Liquid For Which Designed:

Water and red oil

Indicating Liquid:

Provided

Control Valve:

Provided

Equalizing Valve:

Not provided

Mounting Provision For Which Designed:

Surface panel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-d
