End Application:

Tf34 turbo fan engine

Unit Type:

Protective tube

Special Features:

Sump oil temperature; 1 1/2 inch in dia.; 18 ft of lead wirw; steel armored sheath, hi-temp fiberglass insulation with male plug

Material:

Copper alloy thermocouple wire and iron thermocouple wire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27600
