Mounting Type:

Base

Scale Range:

+0.0/+6.0 inches of water

Receptacle Type:

Well

Scale Smallest Increment:

0.01 inches

Connection Location:

End of scale and top of well

Indicating Liquid For Which Designed:

Water

Indicating Liquid:

Provided

Special Features:

Self-calibrating; dual range; range varies according to inclined or vertical position of scale

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-d
