**General Description:**

Heated filament constant current 95 milliamps; dry air calibration; range 1 to 1000 microns; 95 to 125 volts; 60 hertz; 15 watts; accuracy porm 1 micron at 10 microns; porm 3 microns at 80 microns; p 100 microns at 375 microns m 50 microns; gauge tube cable 10 ft lg; cabinet 6 in. H; 9 in. W; 8 in. Dp; nickel plated brass gauge tube; 1/8 in. Npt connection; 20 cc volume; 150 psi overpressure tolerance; 12 millivolt sensitivity at 1 micron; open circuit ambient temp 70 degrees f; 95 milliamp heater current; 30 to 150 degrees f ambient temp compensation

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
